ViraHalt (Capsules)

A dietary nutraceutical comprising of the herbal extracts of *Scutellaria baicalensis, Phyllanthus amarus, Zingiber officinale, and Allium sativum* that helps to regulate the immune response. It also ensures the antiviral activity that acts by blocking viral attachments or duplications.

INGREDIENT	THERAPEUTIC USE
Scutellaria baicalensis/ Skull cap	Has powerful antiviral effects.
Phyllanthus amarus/ Black catnip	Helps the immune and lymphatic systems.
Allium sativa/Garlic	Boosts the disease-fighting response of white blood cells.
Zingiber officinale/Ginger	Boosts immunity.

ViraHalt (Sachet)

A nutraceutical drink comprising of Ingredients like *Sheep milk powder, Hypericum perforatum, Astragalus oleoresin, bromelain* amongst others enhances the immunity and regulates cytokine response thus imparting the antiviral effects.

INGREDIENT	THERAPEUTIC USE
Sheep milk powder	Possesses high nutritional value, thus enhances the immunity
Zinc gluconate	Inhibits the effect of viruses that infects the human respiratory tract and also inhibits the immunodeficiency viral effects
Vitamin D3	Protects against the respiratory tract infections thus enhances innate and adaptive immunity.
Astragalus oleoresin	Induces the secretion of cytokines IFN-β which prevents against viral infection
Hypericum perforatum	Possesses antiviral activity by targeting the viral proteins
Serrapeptidase	It is an effective anti-inflammatory enzyme that adds to the repair and regeneration of injured tissue and boosts the immunity
Bromelain	Possesses proteolytic activity which damages the viral envelope thus virus loses its capacity to reproduce.
Trypsin	Inhibits production of inflammatory cytokines and reduces bacterial bio-burden. It acts as an anti-pathogenic agent against respiratory tract infections and biofilms.
